ABOUT ME

I'm a passionate software developer with a strong focus on building engaging web applications and indie games. For the past five years, I've been actively developing projects in both fields.

I specialize in React and Next.js, and I deploy my web applications using platforms like Netlify and Vercel. My work includes my personal portfolio site, the Vixy Games website for my indie game studio, and several smaller test projects. Currently, I'm developing a VsCode extension "Easy Web Creator" to streamline and accelerate the web development process.

In addition to web development, I've created and published several mobile games on the Google Play Store and released PC games on Steam.

SKILLS

- C, C++, MySql, Javascript, React, Next-js, HTML, CSS,
- Unreal Engine 4, Blender, Unity, Photoshop, Adobe Illustrator

LANGUAGES

- Turkish NaturaL
- English Fluid
- Spanish A2

🎓 EDUCATION

EUROPEAN UNIVERSITY OF LEFKE
Computer Engineering 2021 - 2025
- Reference: Prof. Dr. Cem Burak Kalyoncu (0533 879 49 09)

European University of Lefke, Department of Computer Engineering
Email: ckalyoncu@eul.edu.tr
A letter of recommendation is available upon request.

👤 EXPERIENCE

- STUDENT ASSISTANT (EUL 2023 - 2024)

    During my time as a student assistant at university, I was responsible for assigning and evaluating homework for lower-year students, as well as invigilating exams. This role helped me develop organizational and communication skills while supporting academic activities.

- GAME DEVELOPER (VİXY GAMES 2019 - ∞)

    I have been creating games for my indie game studio vixy games. I've created and published several mobile games on the Google Play Store and released PC games on Steam.

- WEB DEVELOPER

    I am creating websites with react and next js to show off my projects. I deployed them with netlify and vercel. You can check them from my portfolio website. Also I have my own vs code extension that I am developing to get faster at web development.
